ABOUT

I am a junior front-end developer motivated to learn and grow by building modern websites with HTML, CSS, JavaScript, and React.

PROJECTS

- **Personal Portolio Website**

I developed a portfolio website to showcase my skills, projects, and career progression.

PortfolioWebsite/github

- **QR code menu**

I designed a QR code menu that allows users to access the menu quickly and easily by scanning QR codes.

QrCodeMenu/github

- **Fitness Website**

I developed a fitness website where users can get information about fitness.

FitnessWebsite/github

- **Product Management System Automation using Windows Forms**

I developed an automation project for product management using C# Windows Forms.

ProductManagementSystem/github

- **User Statistics Dashboard**

I developed a dashboard page for user statistics on the internet using Python.
